LEARN MORE ABOUT THIS PRODUCT

Powerful Decision Support

iSMART's comparative contextual analysis helps users to easily interpret and make sense out of data so they can quickly and accurately develop tailored response strategies to deal with potential developing and ongoing problems.

Effective Resource Management

Resource availability and utilization level alerts help law enforcement agencies to seize upon and maximize opportunities for problem solving by utilizing and directing idle resources toward the achievement of agency goals and objectives.

Managing What Matters

iSMART's color-coded visual alert and alarm system directs agency managers to key performance areas experiencing significant deviation from normal activity levels or expected results.

Best Practices Portal

iSMART encapsulates proven decision support, problem solving, and resource management methods that have produced historically unprecedented drop in crime levels up to 76% over 5 years, sustained improvements in public safety lasting beyond a decade, and increased productivity by up to 20% of operating budgets, along with the commensurate cost savings.
